FAREWELL TO THE DEAD. The Dead General's Last Resting Place-

Mow the Funeral Expenses Will Be Paid-Washington Still Auxious That the Body Should Be Removed There. Mr. McGregor, N. Y., Aug. 2 .- Two Sundays intervene between the death and the

funeral of General Grant. The first was quiet and dull as if the solemnity of the sad event weighed upon all here. To-day there was the busy hum of anticipation, the coming and going of the crowds, the frequent bugle call, the movement of the regulars to and fro and everywhere signs of events to The skies were bright, and a cool, gentle

breeze was felt all day. Despite the strict closing of the cottage to the outside public, the little mountain engines were kept busy the little mountain engines were kept busy all day, and the trains were pushed, as well as drawn, up the mountain. The crowd was, perhaps, the largest seen here on any day since the death, though Saratoga is not overcrowded, and would gladly accommodate a few thousand more people.

SAVING PAREWELL TO THE DEAD This has been a memorial day at the Grant This has been a memorial day at the Grant cottage, and the family have been saying farewell to the dead. This afternoon the widow asked that Dr. Newman should be sent for. When he came Mrs. Grant reminded the pastor that her dead would be hers only a little while longer, and asked him to be with the family while they gathered in the cottage parlor to say their farewells. Thus it was hat should be the family while they gathered in the cottage parlor to say their farewells. Thus it was that about 2 o'clock Mrs. Grant and her daughter, and each of her three sons and their wives, were in the room with the dead. Dr. Newman and wife were also present.

The family surrounded the catafaque; Mrs. Grant, from a table, brought her dead husband's Bible, which she opened and passed to Dr. Newman. It was found that the book was opened at the eleventh chapter of Job. The chapter was read; then the clergyman reread the sixteenth and nineteenth verses, and then a prayer of gratitude was offered up—gratitude for the beautiful character of the silent one. After this the entire family, alone with the pastor, entered with him into a religious conversation, and then each and all dwelt upon reminiscences recalled of the

THE FUNERAL PARTY TO NEW YORK,

It has been definitely decided that the funeral party on the rail from Mt. McGregor to New York shall consist of General Hancock and staff, the family, Dr. Newman and wife, the physicians, the pall-bearers, two members of Wheeler post, of Saratoga, which was the first to mount guard here; twelve members of Grant post, of Brooklyn; the two comparegulars now here, comprising eighty men, and the representatives of the press. The ladies will proceed directly to New York, as previously announced. The family are desirous, if possible, that the offers of the singing societies may be accepted, and that Meade post, of Philadelphia, may have the opportunity of performing the burial service of the Grand Army. It has not been decided yet whether it will be possible to arrange for the musical services, as General Hancock is anxious to avoid any charge of deliving the anxious to avoid any chance of delaying the final ceremonies to a late hour. This is the only obstacle in the way of the Grand Army

THE RESPONSIBILITY OF THE EXPENSE. There is already some talk about the responsibility for the enormous expense of the ceremonies of the week. The U. S. Government, under the direction of President Cleveand, will be held not only for the cost of the military army escort and the salutes, but of the funeral train from here to New York. The expense of the stop at Albany, under Governor Hill's proclamation, will come upon the State, which will also meet the cost of the

National Guard turnout, if any. From the arrival of the remains at the grand central lepot to their final interment the city of New York will take charge, and will probably pay or the casket as well.

A ST. LOUIS DELEGATION. Sr. Louis, Aug. 3.—Mayor Francis has appointed a delegation of some thirty leading citizens of the city to go to New York and take part in the solemn ceremonies of next Saturday. THE DEAD HERO'S FUTURE RESTING PLACE New York, Aug. 3.—The distance from the City Hail to the spot chosen for the temb of General Grant is nine miles. It is about our and a quarter miles from the Battery to the Gilsey house, which is at Twenty-ninth street. You count about twenty squares to the mile. The spot chosen is Riverside park, which is not a park in the generally accepted sense. It was the old prolongation and northern terminus of Shantytown, the scene of Harrigan and Hart's famous "Squatter Sover-It is a park located through the inuence and for the benefit of real estate own ers and speculators who were thrifty in their day, and whose shrewdness had not departed

from them, as recent dovelopments show. All things now indicate that the pageant with which the present week will close s to be one of the greatest of all history that the progress of the living Carars in triess grand, and less in significance, than the progress to the tomb of the dead hero of the

reat Republic. THE LONDON MEMORIAL SERVICE London, Aug. 3.—The arrangements for the memorial service to General Grant, at Westminster Abbey, on Tuesday, are practic-ally complete. The service will be at three o'clock, Dean Bradley conducting it. Arch-deacon Farrar delivers the discourse. Tickets admitting to the choir are limited to one hundred. The s spension of business, the draping of the stores public building and houses and the memorial services at Music Hall will impress upon the citizens here no small degree of the honor paid to Ohio's greatest son. In view of the ceremonies attendant upon the day, Mayor Smith today issued the

following proclamation: To The People of Cincinnati: The funeral of General Ulysses S. Grant takes place in the City of New York on Sat-urday, August 5. The distinguished ser-vices of General Grant to the Nation in in the army, as President, and in the civil walks of lite, his high position before the world as the first citizen of our Nation makes it our duty to pay a proper tribute to his memory. The common council, the grand army of the republic, the chamber of commerce and other public bodies and organizations of this city have arranged for memorial services in his honor which will be held at music hall the evening of August 8. Mourning guns are to be fired from sunrise to sunset of that day. In view of these facts and because General Grant was a native of Ohio, I deem it my duty to recommend that on Saturday, August 8, all public offices of the city be closed, and that all citizens should close heir places of business, drape their buildings and homes in appropriate emblems of mourn ing as a tribute of respect to his memory. London, Aug. 3.—The atmosphere of liament is fetid with scandal. Sho charges are freely brought against both young and old. Politicians, heedless of debates, are discussing only the latest scandals. It seems as though the Gazette's exposures would create, in addition to a moral revolt, a political campaign of personal scandal. The criminal law amendment bill, previously unbear of, is now the most important measure of the on, and the house is crowded whenever it is up for debate.

The most notorious libertines in parliament are vying with each other to propose the most stringent restrictions. The bill is being pushed forward with feverish anxiety. The libertines, fearing exposure, desire to close the Westminster school for scandal at the earliest possible moment. THE PREVALENT VICE INVADES A SCHOOL.

The latest scandal affects Eton school, the sighest institution of its kind in the land. which is situated just across the river from the royal castle and park of Windsor. They were met at night by school boys 16 or 17 years

Many of the boys are connected with the highest English families. The revelations of the Pall Mall Gazette

and the subsequent agitation by that paper of the necessity for suppressing the evils discov-ered, have fairly convulsed the country. Im-mense meetings continue to be held daily throughout England, and the Weslevan con lerence, at its conference today, unani passed a resolution of thanks to the Gazett for the thorough manner in which it has per ormed its good work. Similar resolution are adopted almost daily by bodies represent ing all sects and creeds.

Among other things, he said that it was the duty of every man and every woman to calmly consider the iniquitous state of affairs which existed, and then utter one loud "Damn." No one could read the account of the disclosures without resorting to that word to give ven to his feelings, and any person who did not express his condemnation should himself be amned. The cheers which followed this ut erance were deatening, men and vying with each other in sugmenting the din, and when the men were compelled by hoarse ness to cease yelling, the women still litted

Routed in flordes From the Basements and Cellars by the Flood-The Sewers Unable to Take Care of the Immense Volume of Water.

Chicago, Aug. 3.—The great storm stopped at midnight. The total rain fall in the pre-ceeding twelve hours was 5.58 inches, an inch more than the entire rain fall during the mouth of August in either of the last years, and the greatest fall, within the time specified, on record. The fall was so great and rapid that the sewers were unable to carry off the volume of water. Four burdred and twenty miles of sewer pipe are con-structed on a basis of allowing an inch of rain to fall an hour, while yesterday it ex-ceeded two inches. The damage to goods in basements and cellars is beyond estimate. Many families occupying basements were compelled to seek lodgings above the level of the streets.

The Randolph street reilroad track was badly washed out, near Ann street, and all ered with water to the depth of over two feet. This is due to the fact that that portion of the city is about four feet lower than the more improved portion.

The superintendent of sewers is of the opin ion that the flushing of the sewers will prove beneficial, thoroughly purging them and thus proving beneficial to the public health. The paved streets throughout the city this morning, particularly the stone paved ones, have the appearance of having been scrubbed clean with brooms. Many of the Grant decorations on the public and private ouildings are bedraggled and torp damage by the flooding of basements was heavy. Early in the atternoon basements and cellars that were more than ten feet in depth soon contained between two and three feet of water. Thousands of rais poured from the sewers and the basements as th water began to fill up the conduits. The rate ran around the streets scurrying hither and thither in their search for places of salety.

Not unlike them were the Chinamen, all of whom occupy deep basements. Nearly every Celestial in the city found himself without a place to lay his nead and late into the night they were seen nunting cheap lodging houses. Numberles hunting cheap lodging houses. Numberless families were forced to leave the basements in which they resided and seek for temporary lodging in apartments above the level of the streets. Of the residence streets, Huron was conspicuous in this respect, the tenants of many basement dwellings being compelled to leave their homes. Basements and cellars throughout the portions of the South Side where the wholesale bouses are situated were filled with water to a depth of several teet, the loss throughout this district being very heavy, though no estimate of the lamage could be made even by those who are experienced in such matters. The first usiness firm to ask for assistance from the city was Lyon & Healy, dealers in musical instruments. At State and Mouroe streets, fire engine No. 32 was compelled to abandon the job of pumping out the water after two hours of fruitless inbor, as the water poured in as rap-

dly as it was pumped out. Numberless other places were visited but no better succeswas met with and the many engines which had been detailed on the work returned to their respective places.
